Free New Projects@C-Byte User Orientation

Learn how to maximize your online efforts, connecting programmers with webmasters

WHAT: Welcome to Projects@C-Byte (Connecting Programmers with Webmasters) Orientation

We would like to welcome you to C-Byte and show our thanks by providing you with the basics of how C-Byte works, project posting tips, and show how easy the process really is. We will show you how to get the most advanced and robust market for connecting programmers with webmasters.

Please join us to learn the very best way to get your project done.

WHERE: Online From Las Vegas, Nevada & Seattle, Washington

WHEN: Monday through Friday
Various Convient Times to Choose From
Press briefings available with R.S.V.P.

ORIENTATION

DETAILS: **Panelist(s) Info:** Projects@C-Byte Support

Duration: 1 hour

Projects@C-Byte Support will cover the following:

- How to use your Projects@C-Byte account as a valuable business tool
- How to simply and easily post a project
- How and when you should take advantage of Projects@C-Byte's broader channels that include Capital Projects, Feature Projects, Job Postings and Certifications.

TWITTER CHAT:

As a great way for people to connect with each other at the same time to discuss a specific topic of interest on Twitter. C-Byte hosts or participates in Twitter chats in real-time to share news of interest and answer questions.

Chats are open to the public and everyone is encouraged to participate.

Interested in joining staff during this chat?

C-Byte generally promotes chat on C-Byte's primary - Las Vegas, Nevada - Twitter account ([@C_BYTE](#)), through C-ByteDirect's - Seattle, Washington - Twitter account ([@DataCenterReady](#)), through ONReady Lab's World Wide Twitter account ([@ONReady](#)) and through email updates.

TWITTER CHAT

- GUIDELINES:**
- C-Byte uses Twitter quote feature to answer questions during a Twitter chat. This means we will "quote" a tweet, and provide an answer attached to that tweet.
 - Unless posted otherwise, chats are limited to 60 minutes.
 - We answer questions from as many different participants as possible before going back to someone who has already asked a question.
